

# Drought Tolerant Premium Quality Sod Blends

*For over 50 Years, Growers of Premium Quality Sods Blended for Colorado*

## Colorado Blue™

Colorado Blue™ is a drought resistant blend of elite Kentucky Bluegrasses. The semi-aggressive nature of these elite varieties makes an extremely dense, dark, fine textured turf that fills in weak spots. Colorado Blue™ has the highest wear rating of any of our sods. It is ideal for lawns, parks, sports fields and everything in between. Full sun to medium shade, this blend can be mowed from 1/2 inch to 3 inches for desired look. Great year round color and thick density make this our most popular best selling blend. *In Stock Daily*

## RTF®Water Saver® Sod

RTF® Water Saver® Sod is a new type of Tall Fescue, which produces rhizomes and behaves like bluegrass. Unlike other Tall Fescues, RTF® has the ability to fill in bare spots knitting the lawn together with rhizomes. Excellent heat and drought tolerance, RTF® develops a deep, strong root system resulting in 15% less irrigation. RTF® has a fine even turf quality, great color and produces rhizomes that initiate new grass growth. A GVT exclusive. *Special Order Item*

## Scotts®Thermal Blue Texas Hybrid

Thermal Blue Texas hybrid bluegrass provides bluegrass characteristic of rhizomatous growth and fine-dense turf with added heat and drought tolerance. A cross between Texas bluegrass and Kentucky bluegrass, Thermal Blue excels in the heat of the summer, as well as acclimates to cold winter weather. This new hybrid blue stands up to extreme heat, drought and just about anything else that compromises turf quality. *Special Order Item*

## Legacy®Buffalograss

Legacy® has a soft fine textured blade with a medium blue green color. This grass requires a lot less mowing and uses 65% less water than traditional turf type grasses. This second-generation turf type buffalograss excels in Colorado's dry front range climate and is grown in Colorado on our farms. During Legacy's dormant period from September to April, it's a golden straw color. Not recommended for high traffic areas. This is our most water conserving turf and a GVT exclusive. *Special Order Item, June thru September*

### Picked Up

Any amount of sod may be picked up from our Littleton or Platteville locations. One slab to several pallets, we do all the loading for you! Our Slabs weigh less and are easier to install than traditional rolls

### Delivered

We deliver sod 6 days a week during the growing season. We will put pallets of sod wherever you want provided our forklifts can get to the area. We need an opening 8 feet wide and cannot drive on public property or neighbors lawns.

### Installed

Our professional sod installation includes sod, delivery, installation, application of our 20-20-10 fertilizer, rolling of the sod, and complete clean up. On larger lawns, we install "Big Rolls". They're 48" wide and 80' long with 80% fewer seams. Call for a free estimate.

### How Much Sod will Fit in your Car?

#### Trunk of Average Car

12-20 Slabs 72 - 120 sq.ft.

#### Sport Utility

25-50 Slabs 150 - 300 sq.ft.

#### 1/2 Ton Truck

50-70 Slabs 300 - 420 sq.ft.

#### 3/4 Ton Truck

70-100 Slabs 420 - 600 sq.ft.

#### 1 Ton Truck

100-140 Slabs 600 - 840 sq.ft.

*For more information and pricing, please visit our web site [www.gvt.net](http://www.gvt.net) or call. Open 7 Days a week during the season.*

13159 N. US Highway 85 • Littleton, Colorado 80125 • (303) 798-6764 • fax (303) 798-4057 • [www.gvt.net](http://www.gvt.net)

We are located 3/4 mile South of C-470 on S. Santa Fe Drive

## Green Valley Turf Co. Brand Fertilizers

### 20-20-10 +1% Iron

#### New Lawns, Spring, Summer & Fall

Green Valley 20-20-10 + 1% Iron is specially formulated to start new lawns and to promote root growth in established lawns in the spring and fall. Fast release 20-20-10 +Iron contains 20% nitrogen to promote quick growth and deep greening, 20% phosphate for rigorous root development, 10% soluble potash to help fight disease and drought, and 1% fe (iron) to green up your lawn.

25 lbs. \$16.35

50 lbs. \$31.88

### Slow Release +3% Iron

#### Established Lawns & Summer Feedings

Green Valley 20-5-5 + 3% Iron Slow Release continuously feeds and greens your lawn for 8 to 12 weeks. 50% of the nitrogen in this fertilizer comes from slow release Meth-X-40™ nitrogen that produces a slow steady feeding and suppresses surge growth.

50 lbs. \$29.48

### 100% Organic 8-2-1

#### Feeds Micro Organisms, Great With Aerations

Green Valley Organic lawn fertilizer is specially formulated for slow feeding and improving soil conditions over time. DPW or dehydrated poultry waste is dust free with no offensive odors.

This organic fertilizer can be applied any time and is great to put down when aerating to improve soil conditions.

40 lbs. \$18.75

### Pennington Crabgrass Preventer

#### Prevents Crab Grass & Weeds

Pennington Crabgrass Preventer + Lawn Fertilizer contains Barricade, a preemergence herbicide which controls annual grassy weeds and broadleaf weeds in established turf grasses. Use in the spring and summer before grassy weeds start growing. If crab grass was a problem last season in your lawn, be sure to use this product to prevent Crab Grass and other weeds from coming back.

16 lbs. \$15.00

**Slabs Weigh  
Less & are  
Easier to  
Install**

21" x 41" 6 sq.ft. 35 lbs.
