

*"Colorado Blue™ is a great all around turf blended for Colorado. Fine turf quality, dark color and great density makes this a great all around sod."*

Missy, Lakewood, Colorado

# Colorado Blue™

Colorado Blue™ is a drought tolerant sod blend of elite Kentucky bluegrasses that is a dense, fine textured turf. The aggressive nature of these elite varieties makes this turf ideal for backyard play, high traffic areas, and sports fields. Colorado Blue™ has the highest wear rating of any of our sods. Loaded with rhizomes that actively grow horizontally under ground and fill in weak areas, this blend has the ability to withstand punishment and recover quickly. Great year-round color and density makes this a very popular turf for active yards.

*High traffic lawns, extreme drought tolerance, full sun to light shade*

### Heat & Drought Tolerance

The varieties in this blend are selected for our dry climate and are very heat and drought tolerant. These varieties recover rapidly from drought stress.

### Great Wear Tolerance

This blend has the ability to withstand high traffic punishment in back yards, parks, and sports fields and is a semi-aggressive bluegrass blend.

### Very Disease Resistant

Resistance to Necrotic Ring Spot, Leaf Spot/Melting Out, Snow Mold, Brown Patch, Dollar Spot, and Stripe Smut

### Adaptable Mowing Height

Can be mowed from 1/2" to 4" for different applications

### Uses

High use lawns, pets & kids, sports fields, parks, golf fairways

### Sod Blend

4 drought tolerant Kentucky bluegrass varieties

### Texture

Fine leaf blade, dark green color

### Mowing Height

1/2" to 4"
