

Our proven GVT Sports is a blend of wear tolerant aggressive Kentucky bluegrass. These elite varieties recover rapidly from injury, wear and traffic. Due to extensive rhizomes, this sod roots very aggressively for rapid establishment and will get you into play quickly. This blend has early spring green up and holds color late into the fall. GVT Sports sod is grown in sandy loam soil that ranges over 70% native sand. This blend is maintained at 1" to 1.5" height of cut and is a very dense, dark turf.
