

GVT Short Cut Blue is a blend of low mow Kentucky bluegrass varieties that excel in the Rocky Mountain region and is our best performing fairway sod. The compact and aggressive nature of this blend is ideally suited for achieving fast and firm playing conditions. This blend excels at low mowing heights down to 0.5" while maintaining extremely high density year round. These elite varieties are extremely heat & drought tolerant allowing reduced water input for manipulating course conditions. Our GVT Short Cut Blue is produced in sandy loam soil that is over 70% native sand. Dense, dark and fine textured, this superior fairway sod is maintained at 0.5".

Year Round High Density Sod Excels at 0.5" Height of Cut
