

Drought Tolerant Quality Sod Blends

Since 1962

Colorado Blue™

Colorado Blue™ is a drought tolerant blend of elite Kentucky bluegrasses that is a dense, fine textured dark green turf. Colorado Blue™ has the highest wear rating of any of our sods. Great for kids and pets! Loaded with rhizomes that actively grow horizontally and fill in weak areas, this blend has the ability to withstand wear and recover quickly. Ideal for backyard play, high traffic areas, and sports fields.

Full Sun to Light Shade | Heat & Drought Tolerance | Best Wear Tolerance | High Disease Resistance | In Stock Daily

RTF® Water Saver

RTF® Water Saver is a patented self-repairing rhizomatous tall fescue that develops a deep root system for increased water savings. The rhizomatous nature of RTF® fills in bare spots and can go longer between watering. This medium texture blend also is more tolerant to dog urine spots. Be sure to get the real RTF® - We are the only licensed grower in the Denver, metro area!

Full Sun to Shade | Increased Water Savings | Strong Deep Root System | Special Order

SPF30 Texas Hybrid

SPF30 is a Texas hybrid bluegrass that excels in high temperatures. With increased heat and drought tolerance, this grass can go longer between irrigation and uses less water. A cross between native Texas bluegrass and Kentucky bluegrass, SPF30 has aggressive spreading rhizomes enabling it to recover quickly from drought stress and wear. Its spreading ability allows it to recover quickly from wear and fill in weak areas. SPF30 maintains great turf quality with reduced lawn maintenance.

Heat & Drought Tolerance | Full Sun to Light Shade | Reduced Maintenance | Special Order

Legacy® Buffalograss

Legacy® Buffalograss is a native plains grass that uses less water and is ideal for xeric land-scapes. Reduce your lawn watering up to 75% during the heat of the summer. A soft textured sage green turf, Legacy® Buffalograss has a slow growth habit which means you can have a beautiful manicured lawn or let it go un-mowed for a native look. Leed Certified.

Full Sun to Light Shade | Uses a Lot Less Water | Less Mowing | Special Order Item, July thru September

We have 2 locations to pick up sod, fertilizer and seed.
