

DOMINANT *X-treme 7* Bentgrass Sod

Dominant X-Treme 7 is a blend of two top performing bentgrass cultivars, 007 and SR 1150, from Seed Research. This medium/high density blend has excellent turf uniformity and maintains fast putting speeds at variable greens heights. Grown in 100% USGA spec sand, this sod provides a tournament quality surfaces on greens, tees and fairways. Due to improved heat tolerance, Dominant X-Treme 7 maintains excellent summer turf quality. Comprised from a diverse genetic pool, this sod has improved resistance to Dollar Spot, Brown Patch, and Pythium with advanced cold weather performance.

Grown in 100% USGA Spec Sand
Greens Quality Sod

Turf Quality

Outstanding turf quality at various maintenance levels, fast putting speeds at variable greens height.

Disease Resistance

Repairs rapidly from ball mark and aerification damage. This helps get greens and tees back into ideal playing conditions quickly.

Heat and Cold Tolerance

Two superior cultivars, 007 and SR 1150, maintain density in heat with advanced cold weather performance and winter color.

Vigorous

Competitive against *Poa annua* due to aggressive, upright, growth habit. Repairs rapidly from ball marks.

Uses

Golf courses putting greens, tees, fairways
